Policy details of systems and procedures for maintaining and utilizing physical, academic and support facilities The institution with its 97 years long experience has established systems and procedures for maintaining and utilizing every facility under its domain. Every year the management of SXC spends a large amount for maintaining the physical, academic and support facilities. Maintenance of the Campus The care and regular maintenance of the entire college is foreseen by the Campus Minister who with his staff supervises daily functioning. A team which is lead by Secretary supervises regularly ensures the cleanliness and maintenance of the college. A group of workers are deployed in doing all the cleaning tasks regularly. The roads, common places, faculty and class rooms, laboratories, research centres, rest rooms are cleaned daily and mopping is done periodically. Classrooms Classrooms are available with necessary infrastructure under the purview of the Secretary Office. In case of any repair or technical complaints a standardized form is used for the immediate rectification and assistance that would be facilitated by the Instrument Maintenance Facility (IMF) technical team. 100 of the classrooms are fixed with ICT tools for effective teaching – learning. ICT is an effective tool for integrating and automating various activities of examination system at different administrative levels to bring reliable, efficient, scalable, transparent and robust e?governance solutions.ICT, as an assortment of new computing and communication artifacts, is a rapidly advancing technology. ICT has provided means for faster and better communication, efficient storage, retrieval and processing of data and exchange and utilization of information to its users. With the support of ICT, students enrich their knowledge.During summer holidays and as per the requirement of each department regular refurbishment of desks, tables and chairs are looked into. Laboratories The laboratories at SXC house a large collection of sophisticated equipments to carry out research. The Laboratories are equipped with fire management systems which include evacuation and control, first-aid kits, fire extinguishers, fume cupboards, exhaust ducts, goggles and safety masks are available to deal with various classification of fire in case of any emergency situations. All the Science and Computer labs are having emergency exit ways, which could be used when needed. The software in the computer systems are used updated regularly based on the need of the students. Library The books in library are accessed, stamped and then shelved according to proper classification. Periodic Book binding is carried out to prevent the damage of books. A Library Advisory

Committee exists for the optimum functioning and improvement of services. Every year, a good number of books are purchased and shelved. Maintenance of the books is done periodically and the fumification process is done annually. The recent trade mark of the institution is its effective RFID system that monitors the in and out movement of students, faculty and visitors. Sports Centre A dedicated team of a Physical Director and an Assistant (marker) are available to monitor and maintain an effective functioning of the sports wing. Sports equipments are periodically refurbished and new

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

The Alumni Association of St. Xavier's College was established in 1945, enabling the pass out students to reconnect with the College. Alumni Association has its chapters at Chennai, Bangalore, Coimbatore, Tenkasi, Kovilpatti, Tuticorin and Nagercoil to promote periodic meetings. Office Bearers of Chapters meet regularly during Annual General Body Meeting as well as our Family Day i.e. on 26th of January every year. A most meaningful way of giving back to the Alma mater was made in the form of Judge Joseph Clinical Lab. This contribution is made by the son of one of our Alumni Judge Joseph. This laboratory is providing various clinical tests at the subsidized rate for the students, teaching staff, non-teaching staff, alumni and local people. Alumni association gives 'Thirukkural' book to passing out students during graduation day is another meaningful gift. The following endowment funds and scholarships were generated by the Alumni and continued sponsoring every year. 1. Fr. K. A. Soosai Memorial Scholarship Rs – 50,000/- 2. Ex. Mayor. AL. CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

• SXC has the policy of decentralizing the administration in all its educational endeavors. • Decentralization of administration is ensured by the effective functioning of 40 committees in the college. These committees, which include the administrators, faculty, students and external experts, facilitate decentralization of administration. • For an effective and efficient administration, the Principal delegates his power to the different officials. The Deputy Principal deals with the immediate matters concerning the staff and students of Shift – II. The Vice-Principals deal with the daily attendance and discipline of students. The Deans of Arts and Science coordinate the planning and execution of all academic programmes. • The IQAC Co-coordinator suggests quality sustenance and quality enhancement measures to be implemented in the college. • The Heads of Department and Co-coordinators of Shift-II courses co-ordinate various academic and non-academic programmes of their respective departments. The Dean of Students facilitates co-curricular and extra-curricular activities and those of Student Council. The Dean of Women Students co-ordinates co-curricular and extra-curricular activities of women students in collaboration with the Dean of Students. • The Controller of Examinations co-ordinates the affairs of the testing and evaluation of the academic performance of students. • The policy of SXC is to convene the meeting of Officials, Heads/Coordinators of departments once in a week for discussing ways and means of carrying out all curricular, co-curricular and extracurricular activities by eliciting responses from every member. The following bodies ensure effective functioning of the college: • Governing Body • Academic Council • College Council • Finance Committee • Internal Quality Assurance Cell (IQAC) • Planning and Evaluation Committee • Awards Committee • Examination Committee • Appeals and Grievances Committee • Admission Committee • Curriculum Development Cell • Research Cell • College with Potential for Excellence Committee • Sports and Games Committee • Library Committee • Calendar Committee • Magazine Committee • Parents Association • Democracy Forum • Consumer Club • Fine Arts Committee • Placement Cell • Campus Ministry • St.Vincent de Paul Society • AICUF • Alumni Association • Enviro Club • College website committee • Campus grievance redress cell • Student Council • Campus Ministry • Local Grievance Cell • SC / ST Cell • Women's Forum • Anti-ragging Committee • Anti-ragging Squad • Youth Red Cross • Blood Donors' Club • Red Ribbon Club • Public Relations Committee. Case Study: Schools of Excellence • The school system has been established since June 2016. • Disciplines grouped into seven schools- School of Life Sciences, School of Physical Sciences, School of Computing Sciences, School of Languages and Culture, School of Management Studies, School of Human Excellence and School of Social Work and Media Studies- function under directors with participation of department heads. • All academic activities undertaken through schools facilitate an interdisciplinary exchange of expertise within the curriculum. • It promotes innovation, collaboration and excellence. • It facilitates interdisciplinary research • It strengthens research activities. • It promotes sharing resource among various departments.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	St. Xavier's college (SXC) developed

	and implemented its curriculum through tangible programmes which facilitate the students to move towards seventeen Sustainable Development Goals (SDGs) set by United Nations to transform the world. SXC believes that striving to achieve these SDGs would include addressing the current developmental needs of India and Tamil Nadu, in particular its southern semi urban districts like Tirunelveli. In response to issues and demands on local, national and global level, SXC continues with seven-tier cafeteria model Choice Based Credit System since 2002.
Teaching and Learning	Learning at St. Xavier's College has always been student centric. The students participate in various curricular and co-curricular activities within and outside the college. Students regularly participate in the process of "Lab to Land" and get exposure to real life situations. Student-centric strategies result in the holistic development of the students in teams of cognitive affective and psychomotor skills. Science programmes offer state of the art laboratory facilities to provide the students with firsthand experience in their subjects. Industrial visits facilitate hands on experience. The college promotes interactive teaching-learning through a variety of learner-centered experiences. The college concentrates on participatory learning activities which include group discussion, mock interview, brainstorming, problem solving, consultation with specialists, field visits and educational tours, practical demonstration, internship, Business day ,debates, discussions, research based projects, audio-visual presentations, role plays, case studies ,awareness events.
Examination and Evaluation	The institution continuously monitors, evaluates and reports on the quality of course provided, teaching learning process, and has evolved a system to measure the attainment of the learner.To bring in Outcome Based Education in SXC, the attainment of course outcome(CO) is evaluated through several direct and indirect assessment tools. The result of attainment of CO

	is used to evaluate the attainment of program specific outcome(PSO) and programme outcome(PO).
Research and Development	SXC embarks upon research under the initiative called LAB TO LAND programme in the Student Training and Action for Neighbourhood Development centre which is committed to demonstrate, train and empower the weaker sections of the nearby local communities, especially women self-help groups of STAND adopted villages. Training is provided on vermicomposting, azolla production, bio-gas production, ornamental fish culture, spirulina production and tissue culture of medicinal plants. SXC has established 27 Centers for creation and transfer of knowledge. Centre for Biodiversity and Biotechnology, Centre for Aquaculture Research and Extension Entomology Research Unit, Crop Protection Research Centre, Folklore Resources and Research Centre
Library, ICT and Physical Infrastructure / Instrumentation	SXC has a rich library named after Fr. Santiago, which is a 3 storey building. At present the total volume in our library has crossed 1.33 lakhs including the back volumes of 3835. SXC stands high with a sprawling area of 58 acres. It has 9 blocks. Each and every block has a good number of spacious class rooms. Most of the class rooms are permanently fixed with ICT tools like Projector and few key class rooms have smart board facility in them. There are 60 classrooms in SXC campus. classrooms are enriched with Wi-Fi, LAN facilities to make the teaching-learning process more effective. Smart class rooms are available in all the major departments.
Human Resource Management	Staff members both teaching and non teaching attend professional development Programmes viz., Orientation Programmes, Refresher Course, Short Term Course, Faculty Development Programmes to enhance their skills. These programme are conducted in the college by the IQAC at regular intervals. The institution appraises the performance of the staff by conducting an exit poll(survey) in which the outgoing students express their views on the performance of staff in the College, Office, Laboratories and Extension Service Offices. Based on the student feedback, the Principal and

	the Secretary instruct the staff for effective performance.
Industry Interaction / Collaboration	Through MoUs with institutions of national, international importance, other Institutions, industries, corporate houses etc, the College carries out research and extension activities. Students are informed about the industry expectation and their requirements through making them participate in field visit, Internship to industries and institute of eminence. At present the college has 36 MoUs to carry out collaborative activities. The College has linkages with institutions/industries for internship, on-the- job training, project work, sharing of research facilities etc.
Admission of Students	Given the Indian context only six present of those who pursue primary and secondary education make it to the tertiary level, the really poor are almost always excluded from the benefits of higher education. The higher education commission in Jesuit institution always grapple with this situation and make all efforts to make the poor its beneficiaries. SXC follows Tamilnadu Government norms. In the management quota preference is given to poor, marginalized students.

7.1.2 – Environmental Consciousness and Sustainability/Alternate Energy initiatives such as:

Percentage of power requirement of the University met by the renewable energy sources
Energy Audit deals with the energy conversation and methods to reduce its consumption and the related pollution. The auditor targets at the energy consuming methods adopted and find whether these methods are using the energy in a conservative way or not. Energy cannot be seen, but we know it is there because we can see its effects in the forms of heat, light and power. This indicator addresses energy consumption, energy sources, energy monitoring, lighting, appliances, and vehicles. Energy use is clearly an important aspect of campus sustainability and thus requires no explanation for its inclusion in the assessment. An old incandescent bulb uses approximately 60W to 100W while an energy efficient light emitting diode (LED) uses only less than 10 W. Energy auditing deals with the conservation and methods to reduce its consumption related to environmental degradation. It is therefore essential that any environmentally responsible institution examine its energy use practices. Carbon Accounting: It undertakes the measure of bulk of carbon dioxide equivalents exhaled by the institution through which the carbon accounting is done. It is necessary to know how much the institution is contributing towards the sustainalbe development. The auditor considers several efforts practices by the institute to lower the Green House Gases in the atmosphere in order to make the campus more environmental friendly. Energy Audit deals with the energy conversation and methods to reduce its consumption and the related pollution. The auditor targets at the energy consuming methods adopted and find whether these methods are using the energy in a conservative way or not. It undertakes the measure of bulk of carbon dioxide equivalents exhaled by the institution through which the carbon accounting is done. It is necessary to know how much the institution is contributing towards the sustainable development. The auditor considers several efforts practices by the institute to lower the Green House Gases in the atmosphere in order to make the campus more environmental friendly. Installing energy-efficient lighting system Based on the recommendations of the Energy Audit conducted last year, the Institution has reduced CO2 emissions indirectly by replacing high energy-consuming electric bulbs with energy-efficient CFL lighting systems. To understand the carbon emission reduction, it is appropriate to compare the units of electricity consumed between incandescent lamps and CFL. Solar panels are installed in the campus to get power from sun light. Power requirement met by renewable energy sources 30 kwh

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

Orientation is students and staff to avoid plastic usage in the campus Students and staff are advised to use public transport system for commuting to the college. Beautiful lawns are created and maintained Every year additional plants are planted More solar panels are installed to tab renewable energy

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice-1:Streaming System in General English Teaching Objectives: ? To provide encouraging learning environment for slow learners with appropriate curriculum and evaluation ? To practice methods simultaneously addressing the needs of advanced learners by giving them a competent learning environment with a suitable curriculum ? To enhance the communication skills of students of different social groups The Context: St. Xavier's College has a good number of first generation learners from Tamil medium schooling background. Streaming system caters their needs. Streaming is grouping the students according to their capabilities and training them according to their strength and weakness so that they may acquire language skills effectively. This method gains importance in the context of the college policy which encourages admission of socially and economically disadvantaged students. The Practice: The Streaming System is considered one of the Best Practices by NAAC (Best Practices in Higher Education. Ed. Antony Stella. Bangalore: NAAC, 2004. pp. 55-56). The UGC Curriculum Development Centre (1989 2004) also recommends a Seven-Tier

Structure for teaching of General English. Based on the UGC recommendations, the Dept. of English has been following the Seven-Tier Structure given below: Stream C students will do Course 1 to Course 4 Stream B students will do Course 3 to Course 6 Stream A students will do Course 4 to Course 7. Students are catergorised as stream 'A', 'B', and 'C' through a diagnostic test. Since a large majority of the students hail from disadvantaged communities, the "C" stream syllabus for General English meant for slow learners, has been designed to be remedial in nature. The slow learners are given special training through teaching strategies and remedial classes so as to compete with other students. Stream 'A' and 'B' cater to the needs of the advanced learners and average performers respectively. Gradation of syllabus from easy to difficult level is followed in this streaming system. Evidence of Success: Students coming from various educational backgrounds do not get panic with the General English paper. At the end of the course, the students qualify with necessary standard in English. Pass percentage has increased. Students motivate one another because they possess similar abilities and move ahead at the same pace because there are no major disparities in ability within the stream. The entire class is challenged at a level gauged to be appropriate for the whole group. Problems encountered and Resources required. Conduct of Internal Assessment and External Examination was more difficult because more question papers had to be set. The work of the teachers increased. Selection of text materials for each group was difficult. Financial assistance was necessary to conduct remedial classes. Best Practice 2: Title of the Practice: FOUNDATION COURSE FOR HUMAN EXCELLENCE Objectives: ? To sensitize the students towards gender equality, environmental sustainability, religious, lingual, communal and social harmony. ? To provide broad and rich curriculum to Value Education. ? To build positive personal attributes such as self-respect and self-worth, courage, kindness, generosity, trustworthiness and a sense of justice. ? To instill the character and resilience needed to deal with life's inevitable challenges. ? To facilitate the students to deal with relationships optimistically. ? To signpost the young people to wide opportunities of social action. Context: St. Xavier's College as any other institution founded by Christian missionaries reinforced 'moral education' which focused on developing virtues as stable qualities of character. It has a proud tradition of offering moral education to all students since its inception. SXC considers that character and resilience are as crucial as academic performance for young people's in their future endeavour. The students entering into the College are mostly first generation graduates (80 - 90) from villages with very low literacy rate and, socially and economically backward society. As a step to actualize the vision of the College-'to serve the poor and oppressed of our nation in truth, justice and love', and to fine-tune the students' personality traits and social dimensions, the moral education course has been stretched out to Foundation Courses which forms the basis for the success of SXC's curriculum based outreach program-STAND (Student Training and Action for Neighborhood Development) . This led to the inclusion of foundation courses in the curriculum which serves as "a curriculum of life and experience". The courses initially offered are ethics, personality development and social analysis, along with religion. These courses have been taught right from 1992. As SXC realized that foundation course has huge impact on students' life by which it can attain mass movements towards total liberation of oneself and the society, a separate department to coordinate foundation course has been established. The department of foundation courses constantly restructures the curriculum and implements relevant pedagogy for each course. This department's prime objective is to mould and shape the youngest population of the College (I and II UG students) as soon as they leave the School education and enter into graduate studies. By undergoing foundation course for first four semesters, along with the services rendered through STAND - outreach program and service oriented activities by other service organizations, the students not only develop their own character and resilience

but also make a positive difference to others, and the communities around them. Practice As a boon of CBCS and as per the direction given by University Grants Commission, SXC perfectly fitted the foundation courses in its seven tier cafeteria model curriculum structure. The Department of foundation courses recently renamed as 'Department of Human Excellence' initially introduced courses namely ethics, social analysis and personality development. Due to periodical revisions and discussions in Board of studies, the department has reached a new horizon with new courses, ICT resources and assessment tools. Courses dealt during the last five years are ethics, integrated personality development, life skills, human rights and social analysis, environmental studies and skills for employability. The text books are written by the experienced faculty members of the College. The course content and pedagogy is discussed and amended for current trends. Video lessons and worksheet model questions for examination, ethics diary for personal assessment, viva voce examinations are the innovative practices carried out during the last five years. Each course is complimented by the community development activities carried out by the students through STAND and other service organizations as a result of three dimensional frameworks established by the department. This department has framework structure which interconnects itself with all the service organizations of the College. The units interlinked and collaboratively working with Department of Human Excellence are STAND, NSS, NCC, All India Catholic University Federation, Women's Forum, Centre for Women's Studies, Consumer Forum, Democracy Forum, Student's Council, Centre for Ambedkar Studies, Red Ribbon Club, Youth Red Cross, Enviro Club and Campus Ministry. The activities and the events conducted constitute the practical aspects of the theory that the students learnt from Foundation Course for Human Excellence. As a highlight of the pedagogy, speech, motivational talks on first Friday of every month, screening of movies, street play and etc., are organized by Campus Ministry which covers various topics discussed in foundation courses. Evidence of success The success of SXC's foundation courses is evident from the national level recognition received from Ford Foundation to include St. Xavier's College as one of the twelve colleges for the project 'Campus Diversity Initiatives'. The faculty members dealing with foundation courses were selected for training for counseling and resolving conflicts and working for reconciliation. These faculty members carried out a case study on communal disharmony and religious clash in the villages Mandikadu of Kanyaumari district and Kodiyankulum of Thoothukudi district. The impact of undergoing foundation courses is evident by the following facts ? Students' perspective about the society is changed. ? Students learnt to voice their concern on social and personal issues. ? Students internalize human values and professional ethics that pave the way for social and personal development. Problems encountered and resources required: The intrinsic feature for the foundation courses leads to the difficulty of having examination based assessment as these courses deal with more of life issues. The department of human excellence needs some key elements like multimedia facilities to incorporate innovative pedagogy and more reference materials. The courses are taught by the faculty members of various departments who are part of department of human excellence. Foundation courses for human excellence would reach greater heights and new dimensions if the department has faculty members exclusively recruited for the department.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Men and women for others: Leadership through serving STAND (Student Training and Action for Neighbourhood Development) the brain child of Jesuits of SXC, Palayamkottai in 1993 marks the real dawn of Jesuit educational mission which states 'towards integral liberation together with the poor'. The preferential option for the poor has been materialized through STAND, being mandatory and important component of the curriculum. One of the Excerpts from the preamble to Jesuit Higher Education is to shape our students into agents of social change, preparing them for concerted social action and thus paving the way to mass movements which will bring about the desired liberation. STAND turning 25 years now, is a unique village adoption programme where every department adopts one village and the involvement of students in social development activities becomes part of their curriculum. Objectives of STAND Programme: ? To sensitize the students to social issues which helps them move towards holistic development ? To mould them as leaders by loving and serving others. ? To inculcate the habits of dependency, independency and inter-dependency, among students. ? To create the 'Togetherness with Xaverian values', among students. Tirunelveli district is surrounded by many villages with scarce industries and its economy mainly depends on agriculture. Though this district enjoys rich culture and tradition, the people are facing several socio-economic and environmental issues such as unemployment, poverty, underdeveloped rural setups, division based on caste and religion, high rate of crimes mainly caste driven, drought, scarcity of rain water and ground water, and closed communities. In order to sensitize the students for the above issues and help them make positive impact on society, they are nurtured through the concept of MAGIS (It refers to the philosophy of doing more for Christ therefore doing more for others) blended with IGNATIAN PEDAGOGY (Experience, Reflection, Action), by the Jesuit management and the academic community of SXC. STAND provides a concrete platform to exercise the sensitization process towards social issues, through orientation and training for students and faculty members on/off campus and to execute the development projects in collaboration with several government and non-government organizations. This outreach program carries one credit for all the second year undergraduate students and first year postgraduate students. It is comprised of seven visits to the village and one two-day village camp. Every department adopts one village around Tirunelveli situated within the radius of 35 km. The performance of the students is evaluated not through examinations, but by their interest and innovative ideas, their ability to conceive new ideas and integrate with others and to carry out development projects through team work. It is jointly assessed by the faculty coordinator in the respective department and staff coordinator of STAND department. This is carried out in several stages viz.(i) Orientation for students and faculty members on campus (ii) Village survey and social analysis through data collection (iii) The students are grouped into teams as per their interest. The teams are as follows: social awareness team, educational awareness team, environmental awareness team, medical awareness
